

The Four Sixes Fold

Lay the napkin flat on the table with the embroidery facing down, positioned so the embroidery sits in the upper right and lower left corners.

Fold the upper left corner down toward the lower right corner to create a diagonal fold.

Fold the lower right corner inward a small amount along the same diagonal edge.

Continue rolling or folding the right side inward in small increments until you reach the center of the napkin.

Fold the napkin in half so that both ends with visible embroidery are together.

Slide a napkin ring over the two embroidered ends, pulling them both through the ring.

Gently fluff and arrange the exposed embroidered ends so they fan out attractively, showcasing the embroidery.
