

The Triangle Fold

Lay the napkin flat on the table with the embroidery facing down.

Fold the bottom edge of the napkin up so the napkin is folded in half horizontally.

Fold the left side of the napkin over the right side to create a square.

Bring the lower left corner of the square up toward the upper right point, forming a smaller, triangle.

Fold this triangle in half once more to create a compact triangle.

Leave a slight gap between the layers at the base so the folded napkin can stand upright on the table.
